English vision statement

Understanding how language works enables learners to engage with the world around them, and have greater control over their own communication and interactions. At Hodnet, we aim to equip our learners with the skills required to use English confidently throughout their school journey, as well as into their lives beyond. Our curriculum - delivered by passionate teachers - allows children to become enthusiastic writers, and motivates them to achieve their true potential in all aspects of school life. Being taught how to command language properly allows our pupils to communicate their emotions effectively, and develop themselves culturally and socially. At Hodnet we want our pupils to learn how to aim high, love literature, and be fully equipped with life-long transferable skills.
